## **Eastern Market Corporation**

## FY 2008-09 Budget Analysis by the Fiscal Analysis Division

## Summary

On June 20, 2006, the Detroit City Council authorized a Management and Promotion Agreement between the City of Detroit and the Eastern Market Corporation (EMC) wherein the EMC will operate the public market and promote economic development in the one-mile Market District. Eastern Market operations have been officially transferred to the Eastern Market Corporation. The agreement calls for the City of Detroit to retain ownership of the property.

The Eastern Market Corporation is a non-profit "umbrella organization" created to equally include representatives of the City of Detroit, Eastern Market stakeholders and persons with a special interest in the market, including corporate and foundations.

The Eastern Market Corporation's 2007-08 Draft Operating Budget (attached) includes revenues of \$1.68 million. The source of the \$1.68 million revenue is, \$824,000 from Market Vendors (shed revenue), \$250,000 from CDBG (29.1%), \$10,000 from Interest Income, \$50,000 from Miscellaneous Income, and \$550,000 from Contributions from foundations. Budgeted expenses of also \$1.68 million offset the revenues of \$1.68 million. The budgeted expenses include \$767,000 for salary and benefits.

The Eastern Market Corporation does not have a draft budget available for the 2008-09 FY.

## The Eastern Market Corporation Work Plan calls for the following:

- Renovation of Sheds 2, 3, and 5 for increased days of operation.
- Establishing the Market as Southeast Michigan's food center.
- Establishing an education center and community outreach at Eastern Market.
- Streetscape and public space improvements
- Support of existing businesses and attraction of new businesses and residential development to the Market district.

Eastern Market Corporation has formulated a series of seven initiatives.

## Initiatives:

- Create a flexible-use market space that will integrate market sheds and the adjacent retail store frontage into a Market Square. This will increase the market's days and hours of use, celebrate its historical character and allow market businesses to capitalize on event audiences.
- 2. Increase the metropolitan Detroit community's accessibility to high quality farm-fresh produce, attract new seasonal growers, and re-establish the market as a premier center for fresh foods through the creation of improved fresh food vendor stalls in historic Shed 2.

- 3. Improve winterization and add refrigeration to the market's Shed 3 to create a year-round and predictable destination for a healthy array of fresh and specialty foods.
- 4. Create a new resource to engage the community with food, farm, and nutrition-relation educational programs, add visitor amenities, and enhance the market as an attractive destination through the construction a new Market Services and Food Education Center.
- 5. Broaden the market's strength in plants and flowers by adding retail greenhouse space to Shed 5 to foster year-round sales.
- 6. Encourage economically sustainable agriculture product, foster rural-urban educational partnerships and cultivate entrepreneurial opportunity for fresh food producers.
- 7. Invest in the infrastructure of the market to increase visibility, security, and access resulting in an improved identity, attractiveness and a people-friendly experience.

## Eastern Market impact on the 2008-09 Budget

**Pg 35-32** The Mayor recommends a reduction to zero in the 2008-09 FY. This is reduced from \$1 million in capital funds for Capital Improvements for the Eastern Market in Non Departmental appropriation 12387 Eastern Market Capital budgeted in the current fiscal year.

**Page 36-12** The Mayor recommends no block grant funds for the Eastern Market next fiscal year. \$150,000 was allocated from block grant for the market in the current fiscal year.

**Page 39-9** The Mayor recommends an operating subsidy of \$162,914 for the Eastern Market out of Recreation's budget for 2008-09. This represents a \$612 increase over the current fiscal year's subsidy amount.

## **Issues and Questions**

The Eastern Market Corporation Work Plan indicates that the renovation of Sheds 2, 3, and 5 will assist in increasing the days of operation for the Eastern Market.

- The work for Shed 2 projected at \$1.7 million, was projected to start October 2006, was scheduled for completion in September 2007. What is the current status of this project and when will the work be completed?
- The work for Shed 3 projected at \$3.9 million, was projected to start July 2007, was scheduled for completion in October 2008. What is the current status of this project and is this project on schedule to be completed this October? If not, when?

- The work for Shed 5 projected at \$1.2 million, was projected to start July 2007, was scheduled for completion in June 2008. What is the current status of this project and is this project on schedule to be completed next month? If not, when?
- How soon does the EMC anticipate it will increase its days of operations?

The EMC's budget includes \$767,000 for salary and benefits for 2007-08.

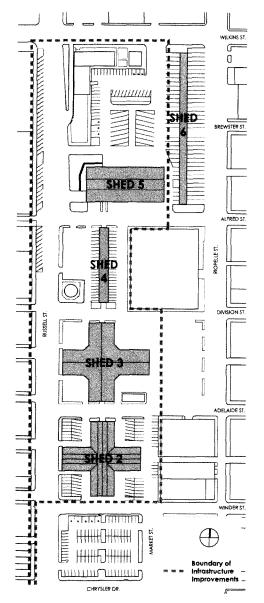

- How many full and part-time positions are included in this budget?
- How many of the positions are vacant?
